PROFESSIONAL EXPERIENCE

Jr. Software Developer

Travidux Technologies, Chalakudy | July 2024 – June 2026

- Joined the ongoing development of RomsnRaks, a comprehensive ERP system tailored for grooming service businesses.
- Developed backend features using Python and Django for booking and workflow management.
- Implemented customer and pet management modules allowing registration and management of multiple pets.
- Built dynamic service selection functionality based on pet species and breed.
- Developed a grooming appointment booking system with time-slot scheduling.
- Integrated an automated WhatsApp feedback module that sends feedback links to customers after grooming service completion to collect service ratings and improve customer experience.

Python Full Stack Developer Intern

Quest Innovative Solutions, Ernakulam | Jun 2023 – Dec 2023

- Designed responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Developed and tested backend logic using Django and Flask with MySQL.
- Collaborated with team members to manage tasks and track project progress using Agile methodology.

Python Developer

Infox Technologies, Ernakulam | Jan 2021 – June 2021

- Assisted in building dynamic web applications using Python and Django.
- Participated in all stages of development including UI design, backend logic, and testing.
- Focused on ensuring application performance, code readability, and cross-browser compatibility.
