PROFESSIONAL SUMMARY

Python Full Stack Developer with 2 years of experience building and maintaining production ERP systems using Python, Django, Django REST Framework, Angular, and PostgreSQL. Skilled in designing REST APIs, role-based access control, third-party integrations (WhatsApp), and reporting modules (Excel/PDF export) for real-world business applications. Proven ability to own end-to-end modules from database design through UI, in Agile team environments.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Django REST Framework (DRF), Angular, JavaScript, HTML5, CSS3, Bootstrap

Databases: PostgreSQL, MySQL

APIs & Integration: RESTful API design, role-based access control, WhatsApp API integration, Excel/PDF report generation

Tools & Practices: Git, GitLab, VS Code, Agile/Scrum

PROFESSIONAL EXPERIENCE

Jr. Software Developer

Jul 2024 – Jun 2026

Travidux Technologies, Chalakudy, Kerala

- Contributed to RomsnRaks, a full-scale ERP platform for grooming service businesses, working across booking, loyalty, franchise, inventory, and reporting modules.
- Built the grooming appointment booking system end-to-end, including time-slot scheduling logic and workflow state management using Django.
- Designed and implemented customer and pet management modules supporting registration and tracking of multiple pets per customer.
- Developed dynamic service-selection logic that adapts available services based on pet species and breed.
- Integrated an automated WhatsApp feedback module, triggering post-service feedback links to customers and feeding results into an NPS reporting system.
- Built a multi-company loyalty and subscription program, including logic for cross-sub-company point/balance transfers.
- Applied role-based access control across modules to enforce permission boundaries between franchise and sub-company users.

INTERNSHIP EXPERIENCE

Python Full Stack Developer Intern

Jun 2023 – Dec 2023

Quest Innovative Solutions, Ernakulam, Kerala

- Designed responsive UIs using HTML, CSS, Bootstrap, and JavaScript; developed and tested backend logic using Django and Flask with MySQL.
- Collaborated with cross-functional teams to manage tasks and track progress using Agile methodology.

Python Developer Intern

Jan 2021 – Jun 2021

Infox Technologies, Ernakulam, Kerala

- Assisted in building dynamic web applications using Python and Django, contributing to UI design, backend logic, and testing.

EDUCATION

B.Tech in Computer Science

2016 – 2020

GISAT Engineering College — CGPA: 8.65

Higher Secondary

2014 – 2016

MGM NSS HSS Lakkattoor — 86%

CERTIFICATIONS

- Python Full Stack Development — Quest Innovative Solutions (Jun–Oct 2023)
- Python Development — Infox Technologies (Oct–Dec 2020)
